Écartement

1

Place the template on the EXTERIOR side of door. Fold template along fold line and place fold line along the edge of door with the centerline approximately 38" (965mm) from floor.

Coloque la plantilla en el lado EXTERIOR de la puerta. Doble la plantilla a lo largo del doblez y coloque el doblez a lo largo del borde de la puerta con la línea central a unas 38" (965mm) del suelo.

Placer le gabarit sur l'extérieur de la porte. Plier le gabarit le long de la ligne de pliage et placer la ligne de pliage le long du bord de la porte, avec l'axe à environ 38" (965mm) du sol.

A través de la puerta
À travers la porte

8

Locate center of strike hole by measuring back from door stop, 1/2 the thickness of door.

Marque el centro del orificio de la placa midiendo hacia atrás desde el tope de la puerta, hasta la mitad del espesor de la puerta.

Trouver le centre du trou de la gâche en mesurant à partir de l'arrêt de porte à la moitié de l'épaisseur de la porte.

4

Drill from one side until the point of drill just breaks through, then complete hole from the other side to prevent splintering.

Taladre de un lado hasta que la punta de la broca salga al otro lado, luego complete el orificio por el otro lado para prevenir astillas.

Perçer à partir d'un côté jusqu'à ce que les dents de la scie apparaissent de l'autre côté, puis finir à partir de l'autre côté afin d'éviter de produire les éclats de bois.
